The qualification covers the following topics:

- Legislation
- Health
- Safety
- Welfare
- The workplace and workplace equipment
- Risk assessment
- Manual handling

- Hazardous substances
- Ergonomics and workstation design
- Transport and vehicles
- Noise and vibration.

Qualification information

Designed for: all employees
 Course duration: 6 hours
 Assessment method: 30 multiple choice question examination paper

CIEH LEVEL 2 AWARD IN PRINCIPLES OF RISK ASSESSMENT

Raises employees' awareness of the concept of risk assessment in a work environment

Overview

Certified by the Chartered Institute of Environmental Health, the CIEH Level 2 Award in Principles of Risk Assessment is a new qualification designed to help improve the workplace culture for occupational health and safety.

Its main purpose is to enable learners to understand the basic principles of risk assessment. This qualification will therefore give all employees the ability to contribute to the process and act always to protect their own health and safety and that of others.

Outline Programme

- Main causes of accidents and ill health, and their implications for people in the workplace
- Legal requirements for risk assessment
- Principles of risk assessment including: hazards, risks and control measures; the five steps

of risk assessment; the hierarchy of control; risk assessment review and record keeping.

Qualification information

Designed for: any employee
 Course duration: 1 day training programme
 Assessment method: 30 multiple choice question examination paper

GROUNDWORK ENVIRONMENTAL MANAGEMENT SYSTEMS (GEMS) COURSE

Background

Groundwork's Environmental Management System Training Programme aims to give delegates a foundation and practical guide to effective management of environmental issues in the workplace.

Entry requirement

There are no formal educational requirements, however delegates should have a background and current role that will enable them to get the very best development from the programme.

Duration

The programme will run for over 4 days and cover the following areas:

- Global to local environmental issues
- Environmental legislation
- Environmental aspects & impacts
- Environmental improvement planning and continual improvement
- Implementation & operation
- Auditing and checking.

Achievement

Delegates will achieve accreditation with the Institute of Environmental Management and assessment (IEMA) on successful completion of a Work-based Portfolio, a Closed-book Assessment and a Verbal Discussion Session.

The total delegate involvement is:

- 18 hours of tuition/workshops
- A flexible amount of practical work, where the delegates apply knowledge and expertise within the workplace and produce an environmental information portfolio for the company. This will benefit the individual and the company.

Benefits of the programme

IEMA Accreditation

Through attending this IEMA accredited course you will be able to:

- Develop an understanding of environmental legislation and policies
- Manage environmental issues in the workplace
- Develop a foundation for progression towards ISO 14001/ BS 8555
- Acquire the skills of an environmental champion.

Lower costs through:

- Waste minimisation
- Improved waste management
- Energy efficiency
- Reduced insurance premiums
- Avoidance of fines and clear up costs.

Positive business image through:

- Demonstration of corporate responsibility for environmental affairs
- Supplier assurance
- Green marketing opportunities
- Reduced risks of prosecution for breaches in environmental legislation
- Avoidance of bad publicity.
